- What is the impact of high speed manufacturing on communities

Scale up

- How do we start to build the 1 billion stoves that are needed
- What is the impact of scale up on communities

Emissions

- How to measure
- Measuring more stoves
- In the field
- How do local peoples take charge of this issue

Safety

- Review
- Acceptance
- Adoption

Adoption and Acceptance of Testing Standards

- Discussion Forums
- Living Standards
- Implementation

University and Education Connections

- Expanding the university network
- Identifying the hard problems
- Teachable moments and problems

Technology and Design

- Develop of Design Standards

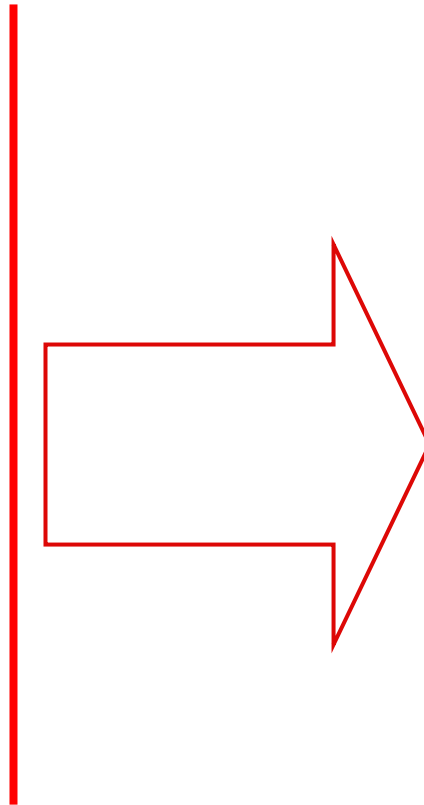

More Communities/ More Countries

- What are we missing and how do we get there
- Who are our partners
- More stoves camps

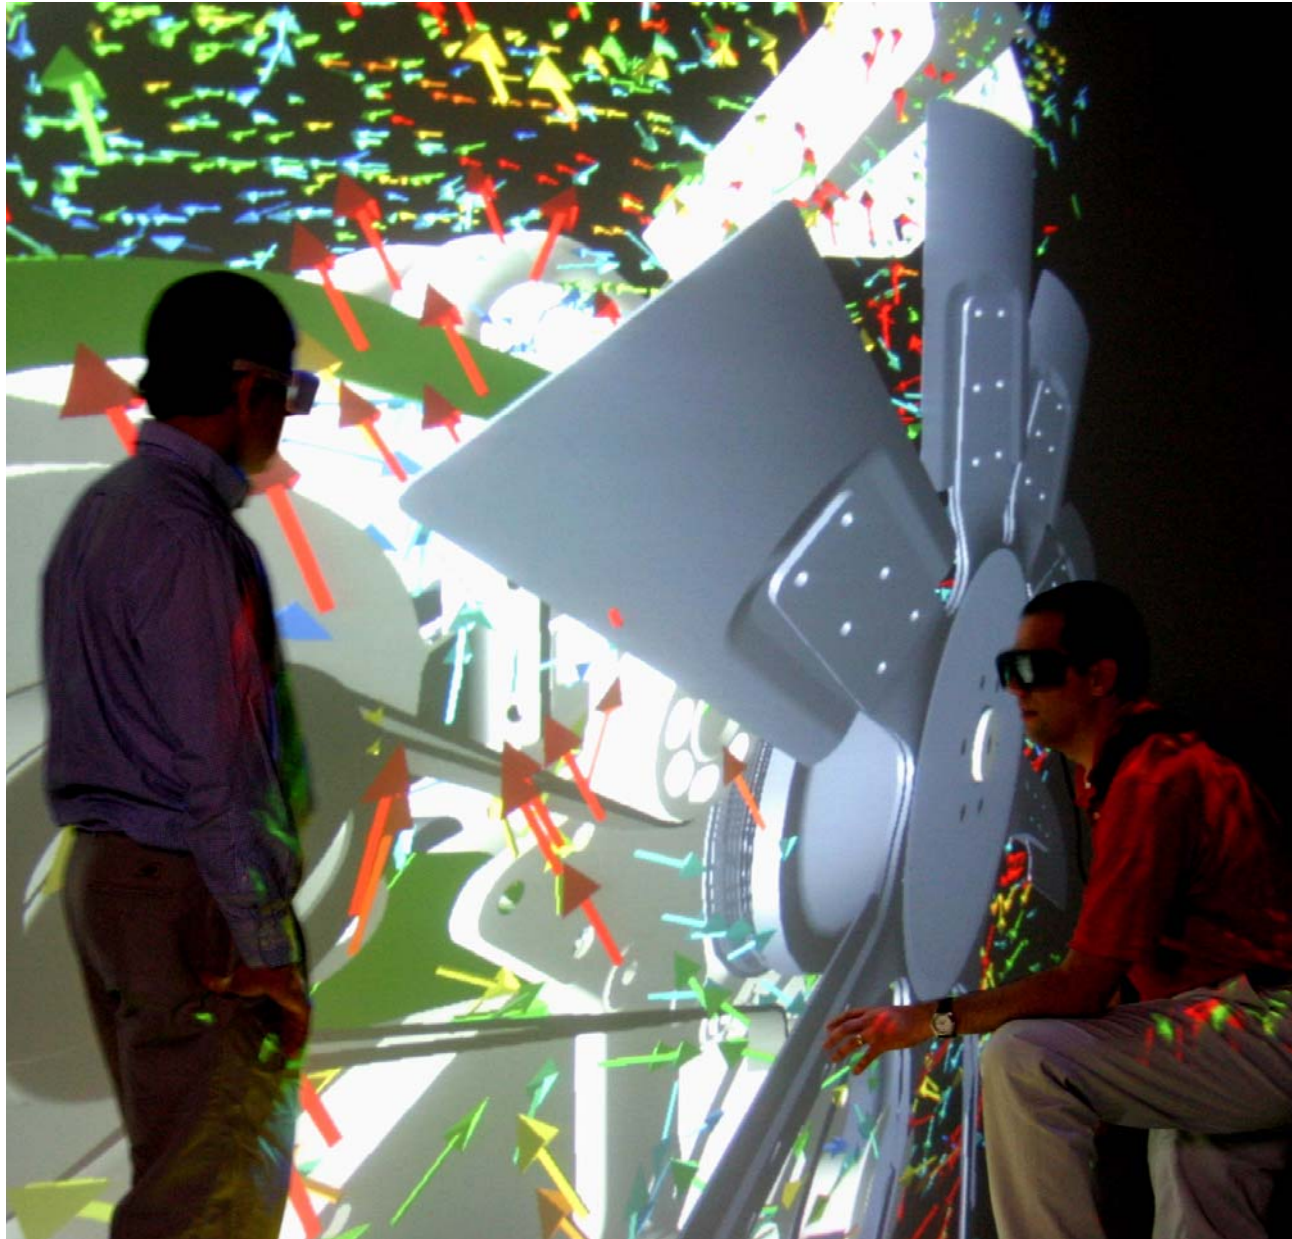

Beyond Stoves?

- Medical Needs
- Clean Water
- Shelter
- Refugee Needs
- Small Scale Manufacturing
- Improved Farming Techniques
-

Meeting
the needs
of the poor
worldwide

The Goal is to
Reduce the
Impact of
Poverty
not just
Build
Stoves

Expanding the Role of Pro Bono in Society

It's a big world

Where do you fit
in?
